Bluemels

LIGHTWEIGHT CYCLE ACCESSORIES

An impressive range of quality lightweight products for the mountain biker, city commuter, touring and racing enthusiast, brought to you in a range of colours and sizes to meet your every requirement.

Bluemels, the original and best! With a long and distinguished history stretching back over 80 years service to the cyclist, the Bluemels name on lightweight mudguards, pumps, helmets and accessories is your guarantee of top quality materials, manufacturing precision and stylish proven designs.

Mudguards

The original unbreakable Bluemels, where you see this seal indicates mudguards manufactured from CAB (cellulose acetate butyrate). The original and best! Durable, colourfast, impact resistant plastic, the ultimate material not to be confused with inferior encapsulated types.

All Bluemels products are made in the UK or Europe and are backed up by the Spencer Distribution sales and service network throughout the UK.

Bluemels

Pumps

High performance, lightweight products utilising the very latest leading edge materials technology coupled with state of the art design provides the Bluemels pump range with quality, durability and pleasing good looks. Bluemels pumps feature universal connections on most models and are designed to satisfy all types of fitting requirements.

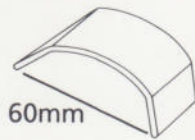

Helmets

A brand new addition to the Bluemels range, the Profitec, Booster and Boomer helmets are quality manufactured to meet the demanding European safety standards and provide the younger rider with the latest designs and range of colours available today. Ride safely, wear a Bluemels helmet.

Bluemels
