Trice

Since 1986

Inspiration not imitation

ICE now offer a range of bicycles. They have everything you would expect from ICE. The same quality & attention to detail but in 2 wheels; superb handling, supreme comfort and versatile design that allows you to configure exactly the bike you want.

Inspired Cycle Engineering Ltd
 Unit 9 Spencer Carter Works
 Tregonigge Industrial Estate
 Falmouth, Cornwall, TR11 4SN. UK

Freedom, escape, adventure, coming alive in body and spirit, this is what owning a Trice is about. Amazing **comfort** from a fully adjustable riding position, an ergonomically sculpted seat and controls that fall to your fingertips. Now you can experience **sure-footed** handling as you sweep around bends, total **stability** as you power down hills and reliable braking when the unexpected happens. It's about effortlessly eating up the miles and the total **confidence** that comes from knowing that your Trice can take anything you can throw at it and then come back for more.

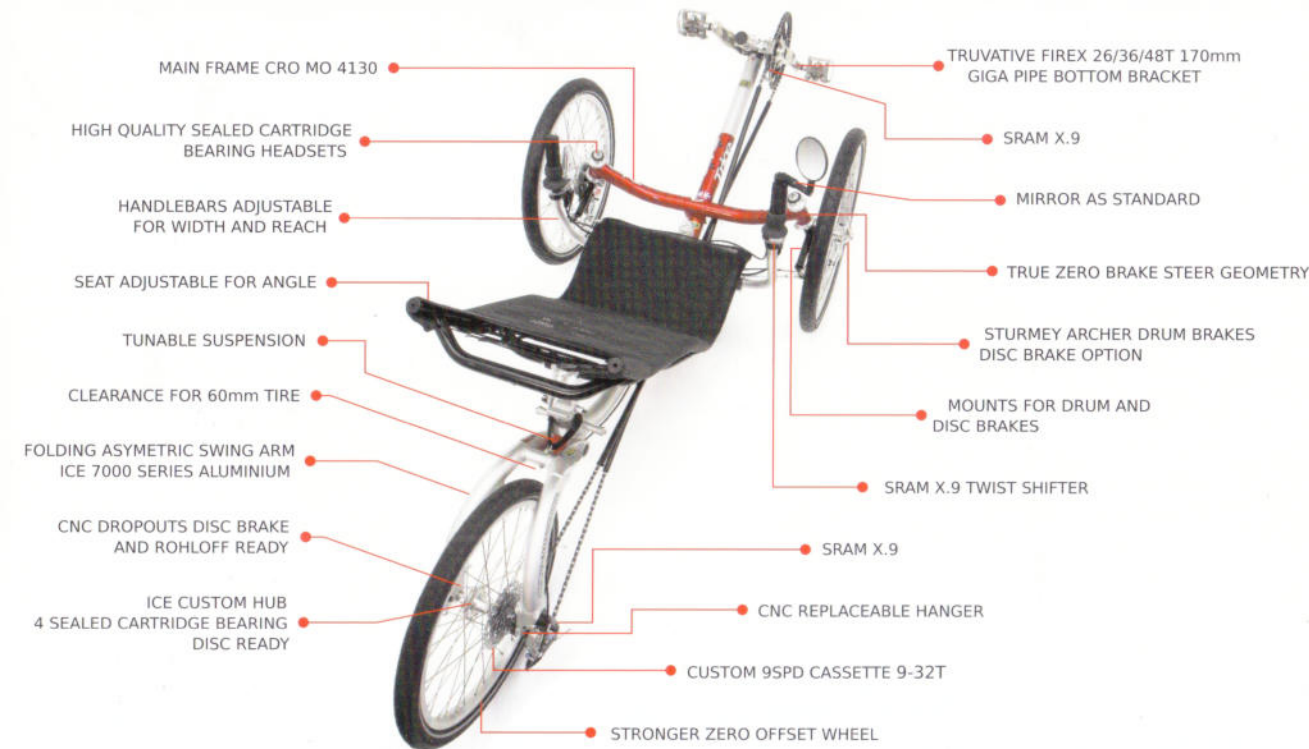

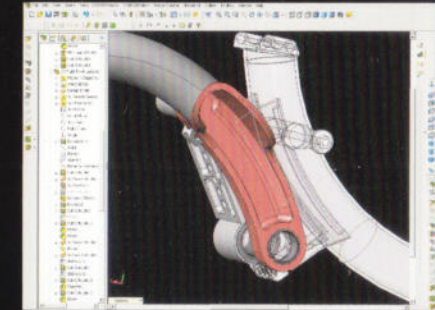

At ICE building the best is our passion.

A combination of British innovation, **state-of-the-art** technology, creative engineering, endless cycles of testing and good old-fashioned **craftsmanship** brings you the best production recumbent tricycle that money can buy.

More than 10 years of relentless development brings you the best ride available today. Our machines are light and durable, continually redefining what recumbent tricycles are capable of. The team at ICE has pioneered many new features such as the fully adjustable elastomeric suspension, **zero brake steer** geometry and unique **modular** construction.

This is our most versatile Trice range ever. A wide range of frame configurations and a huge range of options and accessories mean that your Trice can be perfectly configured to your own demanding specifications. Now you can design your trike; choose a frame, choose the seat, the rear section, and accessories. We put it all together, you ride it. **Your Trice** is what you want it to be.

If you take the time to inspect our frames, you will appreciate the **elegance** and **attention to detail** that simply is not found in any other tricycle on the market. Welds are immaculate, alignment is precise, and the durable powder coated finish is spectacular.

Q

Q stands for Quick and this trike delivers what its name promises. The Q handles with sure-footed confidence and is nothing short of exhilarating to ride. This trike is guaranteed to put a smile on your face, a smile that is not easy to remove!

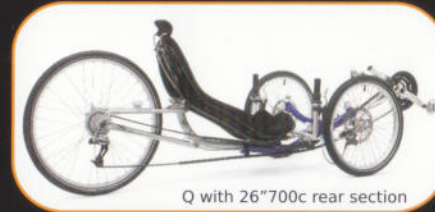

POWERED BY SRAM X-9

- **Rear section/wheel choice 20 or 26"** Suspension for the 20" wheel adds a healthy 75mm of travel to the rear wheel of the 2009 Trice. The **tunable** system features an Elastomer shock absorber which is available in several densities to match rider weight and riding style.
- **Widest all -derailleur gearing range** in the industry. No inefficient hub gears, no compromise on low or high gearing. Trice are now available with a **26 inch wheeled** rear section. The fast and smooth rolling 26inch or 700c wheel facilitates a lighter, stiffer build.
- Both suspension, and 26/700 rear sections are compatible with all main frame and seat combinations and are retrofit-able.
- **Zero brake steer geometry** ICE were first to introduce **Negative Scrub Radius (NSR)** no brake steer geometry. Featured on all Trice since 2000.

- **ICE custom hub and cassette.** Offer a unique ultra wide gear range. 9T and 10T sprockets, sealed cartridge bearings, **lightweight and disc ready.**

Q with 26"700c rear section

T

T stands for Tour and this trike is an excellent choice for cruising along your favourite trails. The T manoeuvres easily and the rear suspension is fantastically smooth over uneven pavement. It is unlikely you will have ever ridden in such comfort.

POWERED BY SRAM X-9

T with 26"700c rear section

- **Separates & folds(20"), Toolless** Suspension swing arm folds under in seconds.
- **High end X.9 drivetrain** Superb smooth and reliable shifting. SRAM **1:1 Actuation™** is simple and dependable.
- **Available in 2 track widths**
- **Dedicated racks** Stable under load and 20" rack comes with quick release, allowing rapid removal.

- **Unparalleled adjustment range** Versatile separate seats have angle adjustment which is crucial to rider comfort, ensuring your neck and spine will not feel the strain of a long days cycling. They can be removed from the trike in seconds without a need for tools. The super-breathable **mesh seat** has lumbar and shoulder support to provide day-long comfort.

The **hard shell seat** is lower and more aero. This high performance option has adjustable side supports (Love Handles!) which help resist the lateral G-Forces that exciting cornering can generate. Comes with a **Ventisit** cover, widely acknowledged as the most breathable seat cover available.

The **Handle bars adjust** for reach and width.

Main options

Q Standard Track
Q NT Narrow Track
T Standard Track
T NT Narrow Track

Suspension rear section for 20"/406 wheels (retro-fittable)
26"/700c rigid rear section (retro-fittable)
Standard Brake Sturmey Archer Drums
Disc brakes - optional upgrade ICE disc hubs with Gator Hydraulic or Avid BB7 brake set

ICE Mesh seat Standard seat very comfortable very breathable (retro fittable)
Hard shell seat optional, lower, high performance, (retro fittable)
Standard crank chainset Truvative Firex
Short crank chainset option
Standard gear shifter SRAM X.9
Bar End gear shifter kit optional Dura Ace shifters & XT derailleur.
Colours Black, Fire red, Marine blue. Others available.
Front Mudguards/fenders with mud flaps One bolt fixing to trike

Adjustable Neck Rest for mesh seat
Adjustable Neck Rest for hard shell seat
TT Bracket positions seat for improved off-road traction on Trice Q
FF Bracket for short riders
TT Bracket for tall riders and improved off-road traction on Trice Q
Chain Ring Guard
Easy Adjust Chain kit Auto-adjusts chain length for different riders
Full Wrap Rear Mudguard/fender With quick release, available for 20"/26"

Breathable foam insert for mesh seat better support & comfort
Standard Trice rear Carrier 6061 T6, quick release mounting load 25Kg
Altura Orkney 34 & 56 paniers (pair)
Radical Allfa ICE special side pods for mesh seats or hard shell seats
Side "Handle Bar Bag" mount
Altura Orkney & Arran bar bag
quick release kit for enhanced tool-less folding/split down
Tool kit A metric set of tools all you need to assemble your trike.

Rotor Bike Q rings oval rings improve comfort and hill climbing performance
Spare elastomers allow suspension fine tuning
Rear disc parking brake upgrade kit disc brake and handle bar lever
International standard disc brake adaptor
Clamp on front light mount clamps onto derailleur post on front boom
ICE bolt on front light mount (front booms with M5 bosses only)
Extra mounting bracket for bottle cage
Computer and mounting kit & Cateye Mity 8 or Strada

"Take a Look" mirror mounts on helmet or glasses
Mirror mount for mounting a mirror lower on the handlebar
Mirrycle Mirror (1 included with trike)
Flag 2 piece (1 included with trike)
Pedals Pedals - your choice from our range.
Tires to cater for every taste
Borealis - Trice- QNT Velomobile
TRICE T shirt Trice design super premium cotton. Navy Blue
